

Lake EMS' Quality Development Department  
Proudly presents an American Heart Association

## **ACLS and CPR (BLS for Healthcare Provider) Refresher**

**Tuesday, March 6, 2018 (C/D-Shifts)  
Wednesday, March 7, 2018 (A/E-Shifts)  
Thursday, March 8, 2018 (B/E-Shifts)**

**Times:**

- CPR component: 0830-1130
- ACLS: 1130-1700

**Location:**

Lake EMS  
Conference Room B

**Class begins at 0830 and doors will close at 0845. If a time issue arises, directly contact [Captain Jonathan Carey](#) at 352/383-4554. Next Refresher is in 6-months.**

To register and obtain the loaner textbook, contact [Adelaide Cataneo](#) at 352/383-4554.

- You must attend the program with the textbook and arrive prepared.
  - Participants who do not have a textbook with them during class will be dismissed. Make plans to obtain a textbook early and take the time to study the nuances of the program.
  - You may want to complete the **Pre-course Self-Assessment** at: [www.heart.org/eccstudent](http://www.heart.org/eccstudent). It will help you define your knowledge base as it relates to the AHA doctrine.
  - **Enter the code found at the bottom of page ii in the textbook to access the test.**

When we teach ACLS, we often hear the question of "What do I really need to know for class?" Recently the AHA updated the ACLS examinations and some individuals have not passed. That said the Quality Development Team is here to help you succeed:

1. Get the BLS/ACLS provider manuals early to spend time reviewing the textbook.
2. You can also get in touch with any of our instructors if you have any additional questions or wish to clarify any information.

This combined ACLS and CPR Refresher program is based on the newly released AHA guidelines. This testing opportunity is only available for EMS professionals living and or working in Lake County.

*Attendees who wish to solely complete the CPR component can leave after they have completed the BLS section; all ACLS participants must attend from the beginning of the CPR component even if they just completed a CPR class. This meets the minimum ACLS criteria of the AHA.*

The American Heart Association strongly promotes knowledge and proficiency in BLS, ACLS, and PALS and has developed instructional materials for this purpose. Use of these materials in an educational course does not represent course sponsorship by the American Heart Association. Any fees charged for such a course, except for a portion of fees needed for AHA course materials, do not represent income to the Association.
